Catalogue No. 111.

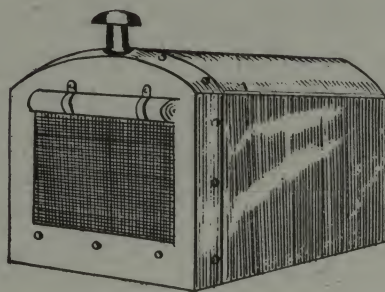

AUTOMOBILE COVERS

These covers were designed especially to meet the demand of such owners of automobiles as are unable to find suitable quarters for their cars so they will be free from dust and dampness. They are made from a selected quality of tan drill and of sufficient size to cover the largest touring car with top in place.

Each\$11.00

RADIATOR COVERS

Cold weather freezes your radiator and makes your engine hard to crank, avoid both with a Radiator Hood.

Front flap can be raised and fastened when engine is started and lowered when stopped. All fastenings are Patent Snap buttons, easy to button and unbutton.

Made of very best heavy black oiled ducking with dark green fleece lining.

Price, Front only.....\$4.00 each

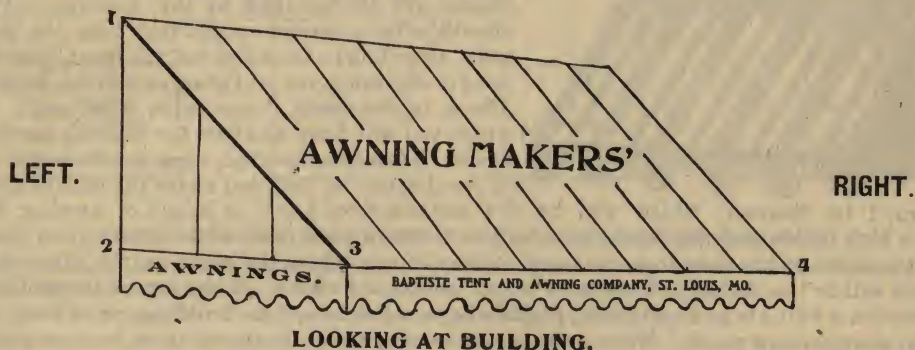

Price, Cover for front and entire hood 7.00 each

In ordering designate name of car also model.

Our Awning Mail Order Blank.

NOTE.—It is Absolutely Necessary that every Question be Answered.

This sheet will serve in place of a salesman. Measure your building, fill in the blank margins, detach and mail it **to us**.

Address.....

AWNINGS.

DIRECTIONS FOR MEASURING STORE AWNINGS.

First determine the place where the joints of the frames will be fastened to the building, which should be from seven to eight feet from the sidewalk, according to the height of the front, (see figure 2 in diagram); you will observe that the curtain, fifteen inches deep, drops below that point, for which you will have to allow for clearing people's heads. Then measure from there to where the top of Awning can be fastened above the windows (see figure 1 in diagram) which will be the distance from 1 to 2, or height of Awning; 2 to 3 in a high building should be the same as 1 to 2; but in a low one a little more. Then measure the width of the store from center of column on one side to the same on the other side, which will be the distance from 3 to 4, or width of Awning. If the top of the windows where the Awning is to be attached, projects beyond the face of the building, or is back out level, mention how much. When ordering an Awning state whether it is to be fastened in stone, brick, iron or wood, both as regards the top and bottom, and whether the door posts and face of the building or outer columns are in line; also, whether the frame requires three or more or less joints and bars. In ordering a new cover for Awning state whether the front bar is of iron or wood.

WINDOW AND DOOR AWNINGS.

DIRECTIONS FOR MEASURING WINDOW AND DOOR AWNINGS.

In ordering these Awnings, the measure is to be taken on the door or window frames, not on the brick work, and in all cases state the shape of top of window, giving name of shape from our diagrams.

In taking measurements for Window Awnings, measure from 1 to 2, 3 to 4, 4 to 5, 6 to 7.

Always state if Awnings wanted are for first story or stories above. If for first story state height from sill of window to ground.

TWENTIETH CENTURY SHAFT GEAR ROLLER AWNINGS,

considered the best,
easiest operated, and
most powerfull **Awn-
ing** in the world.

For prices of Awnings
complete see page 5.

The above cut shows all Gearings and Roller as it appears when
set up in place before the Awning is attached.

ENDS FOR ROLLER AWNINGS

In ordering specify whether to be sewed in like figure 1 or separte like figure 2. If not
specified, we will always have Awnings made and shipped like figure 2, as this style has
preference over all others.

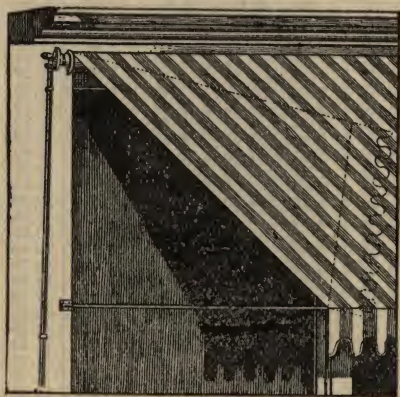

Fig. 1

This cut shows awning with ends folded
under to roll up with awning.

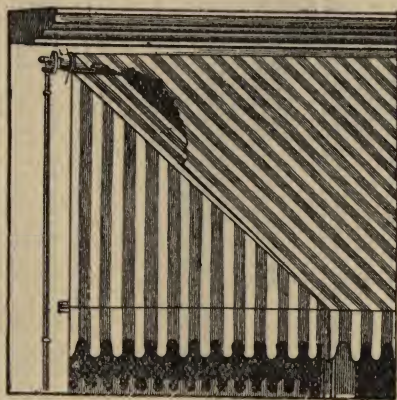

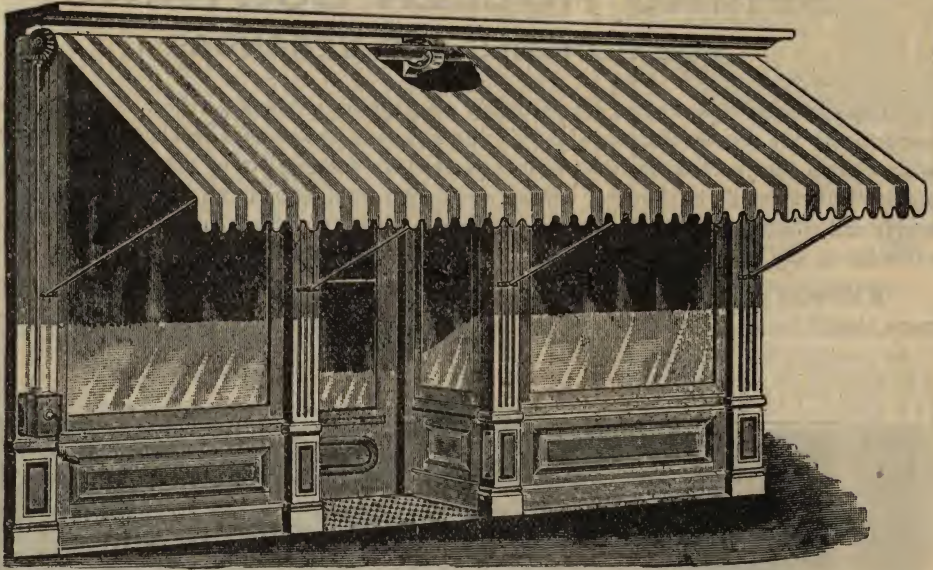

Fig. 2

This cut shows ends separate. As the
awning rolls up, ends fold up as in
an ordinary store awning.

SPRING ROLLER CURTAINS

FOR PORCHES AND VERANDAS

Our spring veranda rollers are peculiarly adapted for sleeping porches. The old idea held tenaciously by the people, that the night air was injurious, has become obsolete. All the authorities now agree that perfect health is best conserved by the free air of heaven while awake and most particularly while in slumber. When awakening from sleep in an open porch, the sense of strength and vitality noticed is in extreme contrast to the feeling of lassitude and fatigue occasioned by slumber in any ordinary room not open to the free winds of nature.

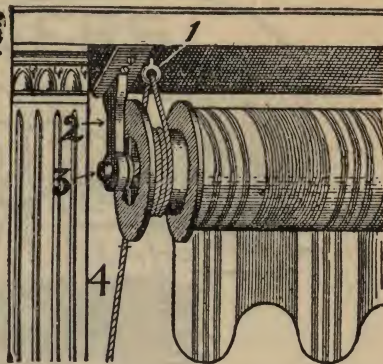

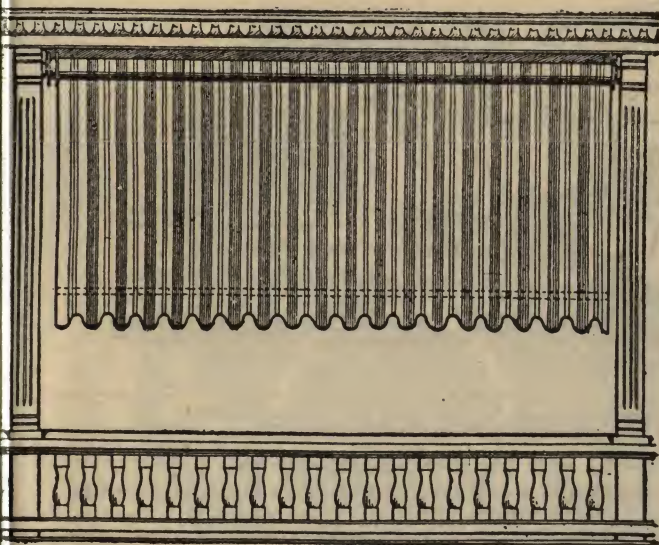

A sleeping porch should be screened to prevent the inroads of insects, and inside of these screens should be placed shades to be used in high winds, during snow storms and beating rains.

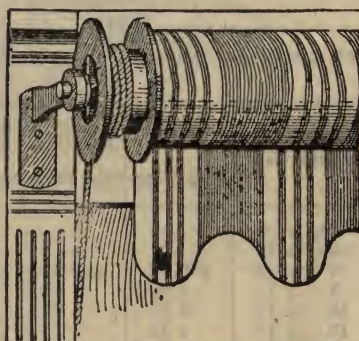

Prices: Spring Roller Curtains, Ready to set up.

Width	Height	Price	Width	Height	Price
4 ft. x	4 ft., 1½ in. roller.....	\$ 3 92	4 ft. x	8 ft., 1½ in. roller.....	\$ 5 32

Prices quoted above are for fancy stripes any pattern. Plain white goods 5% less.

Showing Bracket Fastened to Ceiling.

Showing Bracket Fastened to Front.

DIRECTIONS FOR MEASURING.

Give full width of space where CURTAIN is to go. The Curtain will be 4 inches narrower, as the fixtures take up 4 inches.

Give distance from top to where bottom of scallop is to be when down. The goods will be made one foot longer, which is to be left on roller when curtain is lowered.

DIRECTIONS FOR PUTTING UP.

Fasten brackets as per above cuts, next wind half the rope in groove of fixture at end of roller, then run rope through screw eye which is placed at point 1, after which bring down as shown at figure 4 and fasten to cle at which should be placed within easy reach.

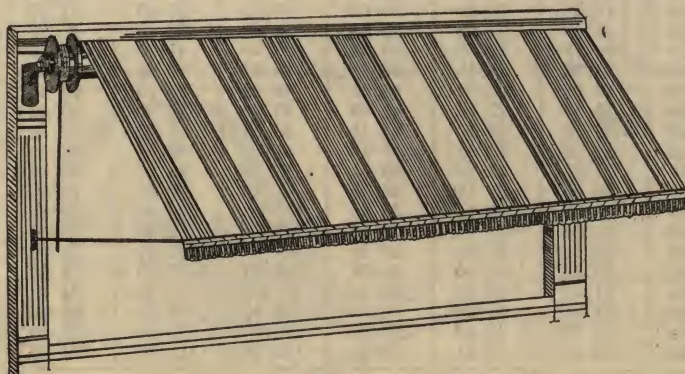

To raise curtain pull rope until desired height is obtained.

To lower curtain loosen rope and let it drop to point wanted.

PRICES OF CURTAINS COMPLETE.

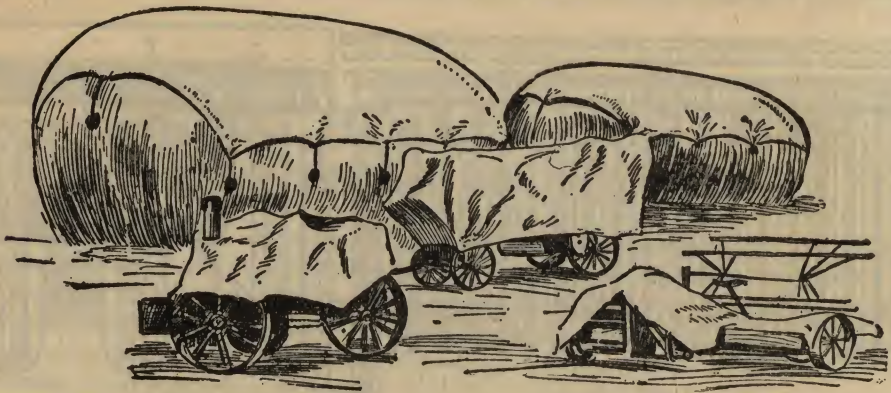

8 ounce Single Fill White Duck, per square foot.....	\$0 07
10 ounce Single Fill White Duck or 8 ounce strips, per square foot.....	09
Fancy stripes, any pattern, per square foot.....	12

This style of curtain is to be recommended for porches on residences or any open space where shade is desired.

**ROLLER AWNING AND CURTAIN COMBINED**

For sleeping porch at night, can be used as drop curtain. In the heat of day can be projected same as an awning simply by projecting the arms which are attached to the front pole.

Price 25% additional to above curtains.

PLAIN WHITE CANVAS PAULINS.

Specify whether **FULL** weight or **LIGHT** weight goods are wanted. See Discount Sheet,

WALL TENT WITH FLY

Flies Complete Without Poles Half The Price of Tents of Corresponding Size.

Sod cloth in tents extra charge, Tents 7x7 to 9½x12 have one door only.

Flies always extra and if projecting as shown in back ground proportionately more.

For every 6 inches (or part) increase in height at centre or wall, add 5%.

For Tents or Flies made of Duck prepared against Mildew, add 15%.

Stove-pipe holes with zinc lining, \$1.40 each, windows, \$2.00 each, Ventilators, \$1.25 each. If tents are wanted for use over frames, always so inform us.

Fly extends 12 inches over each side of tent.

Cotton Duck is made in many grades, as well as of various weights. A light weight Duck of the best quality will give better service than an inferior grade in heavier weight. "U. S. ARMY STANDARD" in this catalogue, indicates Duck of the quality and closeness required by U. S. Army specifications, in conformity with which it must be free from sizing, (stiffening used in inferior grades), as this increases the tendency to mildew. We therefore advise the use of the best duck only, and its preparation by special "Mildewproofing" process.

THE PRESCRIPTION OF AN EMINENT PHYSICIAN:

"Build an open shack in a nearby vacant lot and live in it. If you have a back yard, buy a tent and lock your bedroom door."

THE "BAPTISTE" MATTRESSES.

THESE mats are entirely hand made under the personal supervision of Mr. Geo. Baptiste, "Wrestler," who has spent the greater part of his life in athletic work. Having given particular attention to the construction of this article he has overcome the many objectionable features often found in hair mats, namely: knots, lumps, irregular padding, etc. They have been adopted by nearly all first class gymnasiums throughout the country.

These mats are light and strong, easily rolled up and removed if desired. Stuffed with hair felt, the entire length of a mat covered with strong ducking.

These mats are made in three thicknesses. 1 inch, 2 inch and 3 inches. One inch thick, generally used for padded floors at boxing contests and for wrestlers. Two inch thick, generally used in gymnasiums and turnverins where floor space has been reserved. Three inches thick, principally used for bowling allies and other uses where a thick soft padding is desired.

Mats can be made so that any number can be attached into one, and are easily handled for traveling purposes.

BAPTISTE PATENT SELF-ADJUSTING FOLDING ARMS FOR AWNINGS

Pat. May 25, 1909. Geo. Baptiste, Patentee and Sole Manufacturer

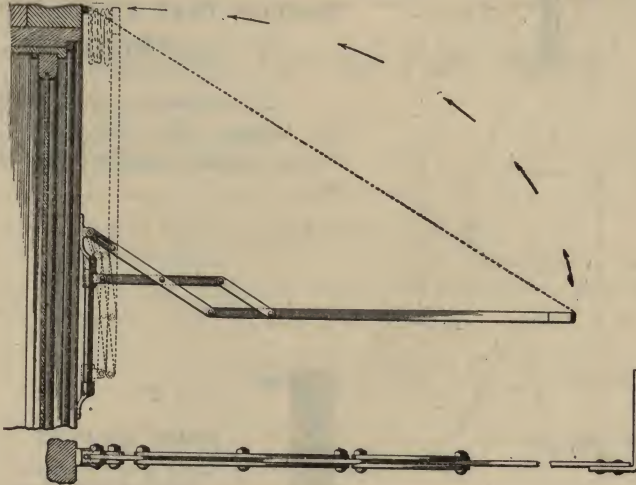

Cut shows adjustment of Arms folded when Awning is up, not in use.

Can be
Used With
or Without
Ends

Cut shows adjustment of arms extended when Awning is down, in use.

(For Rope, Chain or Cog Gear Awnings. For Fronts with Prism Lights or any low front)

Cut shows arm fully extended.

The Baptiste Patent Self-Adjusting Folding Arm is intended for low fronts where greater projection is desired than can be had by any other arm.

Each arm and all parts are galvanized and will not rust. Parties intending to use this arm will find it superior to anything on the market.

Special price quoted on request.

THE "BIG SIX" UMBRELLAS.

With six 38-inch steel ribs, 3-16 inch diameter, Hook pattern, with ring notcher, covered with "HEAVY" Duck, Blue, Brown or white; covers removable. Positively the strongest Umbrella made.

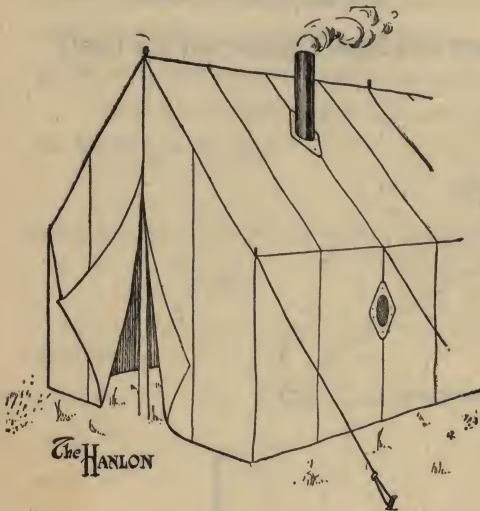

Per dozen.....\$32 00

Sylvan Cot

In its construction this bed is a marvel of skill. Opened it is a full length, easy, elastic and comfortable bed; and folded it is a snug package about 3 feet long and weighs 16 pounds. It is equally useful for the Camp, Lawn, Piazza or House.

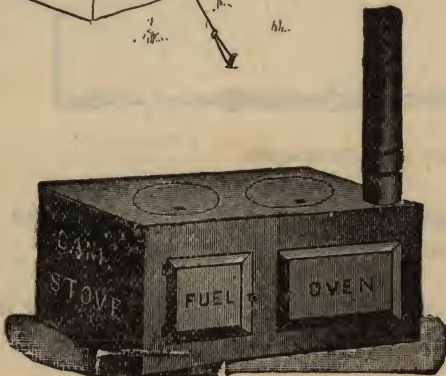

This bed is covered with extra good quality of 12 ounce double filled brown duck. Can be furnished in same quality of white duck. It is easily and quickly opened and folded, and stands firmly on the floor adjusting itself to uneven ground when necessary. This bed is furnished with a duck fold and easily convertible into a comfortable pillow.

Price.....\$3 50 each.

**HANLON TENT STOVE PIPE RING AND VENTILATOR.**

No sewing or cutting of canvas, placed in any location after tent is pitched, protects the canvas and lasts indefinitely. Metal frame.

Price.....\$1 50 each.

**CAMP STOVES**

These stoves are made of sheet iron with two griddle holes, an oven 9x15 inches, and have 4 joints of telescope pipe; are durable and light in weight.

Price.....each \$8 00

Weight, 20 pounds

LIBERAL DISCOUNT TO DEALERS.

TENTS AND CAMP FURNITURE FOR RENT.

We desire to call your attention to our renting department.

We have for rent large Oblong and Round Tents, capable of seating from 100 to 2,000 persons, for Meetings, Conventions, Political gatherings, Skating Rinks, etc., etc. or for use as Show Rooms, at Expositions, Fairs, etc. Seated and lighted if required.

We have also large and small "Family" and "Wall" Tents, Cots, Tables, Chairs, Camp Stool, Gasoline Lamps, etc., as shown in Catalogue, to rent for Military Encampments, Conclaves, Camp Meetings, Sunday School Assemblies, etc., or for small camping or sporting outfits. Candy, Refreshment or Sleeping Tents for special occasions, to rent either by day, week or month. Also fancy or plain, large or small tents, with or without floor, tables, chairs or lamps.

Parties requiring medium or large outfits will find it advisable to make their arrangements early. Please send for estimates giving quality and kind desired and stating at what date and for what length of time required.
